2	The legs seem a little long in pangolash--it should seem to just shuffle across the ground	5/26/2013 5:22 AM
3	needs prevo that match EVO	5/24/2013 11:12 PM
4	1C is pretty good in a weird way	5/24/2013 10:22 PM
5	C's Pangolash is pretty good, but its proportions feel odd, Its head is too small for a body that long for example	5/23/2013 3:37 PM
6	The evo needs a more streamlined , the leaves should be tighter against the body.	5/23/2013 12:26 PM

1	I love the D variant of Fumighast. It reminds me of Genie from Alladin	5/26/2013 2:23 PM
2	It doesn't need three stages. make a basic flask thing with a little crack that apparently smashes and releases a fucking beast when it evolves	5/26/2013 5:22 AM
3	B looks stupid, partly because bad art, A looks cartoony	5/25/2013 6:52 PM
4	D and C are good but A and B are not cutting it	5/24/2013 11:12 PM
5	The C and D lines are some of the most interesting, clear, and plain awesome looking Pokemon of this entire project.	5/24/2013 6:31 PM
6	God, this is the most wasted idea on the dex, why is it so ugly? And what with people Who support C Fumighast? Do they even have eyes?	5/23/2013 3:37 PM
7	Noxial sucks so much ass. All versions	5/23/2013 3:27 PM
8	D with legs is awesome	5/23/2013 3:09 PM
9	Blank eyes work best.	5/23/2013 12:26 PM
10	superior Alchemist-like Fumighast should be chosen! Where is it!? I miss you, Alchemist!	5/23/2013 9:46 AM
11	The D one with legs is the best. The whole B family is an abortion, and the A family is just too tryhard and edgy.	5/23/2013 4:04 AM
12	Pretty much all except B are dex-worthy, I think, but it's great that we're still trying to improve to make this one of the better lines, in my opinion. I think the C Phlask would fit fine into the A evo line, if that is what ended up happening, and Noxial for A and C could be switched across lines and still work great.	5/22/2013 10:53 PM
13	All prevos could work as long as they get redesigned to match evos.	5/22/2013 10:20 PM
14	The Phlask guys were so close to being perfect with the design of D fumighast and that one Phlask people said looked like a bong. Those people ruined the mon by associating a stigma with the most effective following of he concept. It looked like a bong because bongs are glassware, just like how chemical measuring equipment is glassware, specifically flasks are glassware, and Phlask is glassware. Bring back that Phlask use C fumighast and design the shitty middle stage based off those two and the motif of a ghoul emerging from glassware.	5/22/2013 6:55 PM
15	these are getting further and further away from lab equipment. like, one of them has fucking devil horns.	5/22/2013 6:25 PM
16	Ben 10! He's a kid and he wants to have fun But when you need a superhero, he gets the job done! Ben 10! With the device that he wears on his arm, he can change his shape and save the world from harm! When trouble's taking place, he gets right in its face! Ben 10! When lives are on the line, it's hero time! Ben 10!	5/22/2013 6:23 PM

4	B would be more popular on this poll if the new coconut mask evo was in it.	5/23/2013 3:37 PM
5	It may just need some different artist takes to really see if the design works.	5/23/2013 12:26 PM

1	neither they are both awful	5/26/2013 12:21 PM
2	They're both pretty sub-par. I would like to see an evo corresponding to the coconut prevo that actually looks like a coconut, rather than a beach that's on heroin.	5/24/2013 2:56 PM

11	I know the prevo for B has been voted out, but how can you ask us to vote for "consistency of the design" if B has no design that looks like it's prevo? Kind of skews the results.	5/22/2013 11:53 PM
12	What happened to the cool coconut evo that was in yesterday's thread? I like that one best.	5/22/2013 10:53 PM
13	Neither! The new one that didn't make it to survey is better.	5/22/2013 10:20 PM
14	Redesign A evo completely though.	5/22/2013 6:55 PM
15	The B prevo is more fitting as an evo in this case.	5/22/2013 6:26 PM
16	missing tribal eleplant that was made yesterday	5/22/2013 6:25 PM
17	Where's the evo with the coconut battle armor and red paint? I fucking loved that version.	5/22/2013 6:25 PM

3	he looks to fat for me, im sorry	5/23/2013 5:59 AM
4	Eye 1 may be hard to define in a sprite, it's to crowded. Closed eye is best. Legs need to be made thinner and body slimmer so it isn't a potato with a head on it. One thing that bugs me is n the art, the neck area looks flat instead of curved, which in combination with the body/legs may bemaking it look far too squatty.	5/22/2013 10:20 PM
